

Making the most of our device

Our new digital device is designed to help you stay in touch with family and friends, and to help you access our services. It's a simple device to use and it's designed to be easy on the eye. It's also designed to be easy on the hand. It's a device that's designed to help you stay in touch with family and friends, and to help you access our services. It's a simple device to use and it's designed to be easy on the eye. It's also designed to be easy on the hand.

This sheet will:

1. Help you get your device set up so it works for you.
2. Help you download apps.
3. Help you use your device to make and receive video calls.

Setting your device up so it works for you

Getting started

Your sight. You can use VoiceOver, a screen reader that reads out loud what's on your screen. You can also use Zoom, which lets you zoom in and out of the screen.

Your hearing. You can use Live Captions, which shows captions for the audio in your app. You can also use AssistiveTouch, which lets you use your device with a single tap. You can also use the Accessibility Shortcut, which lets you turn on VoiceOver with a triple tap of the home button.

Your dexterity and mobility. You can use Switch Control, which lets you use your device with a single tap. You can also use AssistiveTouch, which lets you use your device with a single tap. You can also use the Accessibility Shortcut, which lets you turn on VoiceOver with a triple tap of the home button.

Downloading apps on your device

Before you can download any apps, you need to make sure you have the right permissions set up on your device. For more information, see [Permissions and privacy](#).

Adding apps to your device

There are two ways to add apps to your device: by using the app store or by using the app store's search function. For more information, see [Adding apps to your device](#).

If you have an Apple device:

1. Open the [App Store](#) app on your device.
2. Tap the [Search](#) tab at the bottom of the screen.
3. Tap the [Search](#) field at the top of the screen.
4. Type the name of the app you want to download.
5. Tap the [Search](#) button (magnifying glass icon).
6. Tap the app you want to download.
7. Tap the [Get](#) button.

If you have an Android device:

1. Open the [Google Play Store](#) app on your device.
2. Tap the [Search](#) tab at the bottom of the screen.

Using your device for video calling

When you use your device for video calling, you can use FaceTime on your Mac, iPhone, or iPad, or you can use a third-party app like Zoom or Microsoft Teams. You can also use your device to join a video call on a computer screen.

Using FaceTime

1. Open the FaceTime app on your device.
2. Tap the "+" button in the top right corner.
3. Tap the "New Contact" button.
